

Robotic / Vending Machines for your Dispensary

ARX Ltd is the UK's leading provider of pharmacy automation offering robotics, vending machines, automated storage and retrieval systems to support you and your staff within the dispensary.

The automated design can vary dependant on pharmacy type, volume, size and location and all can be tailored to your specific needs.

There are many demonstrated benefits to these systems:

- Reduce Costs: Improve Staff Efficiency, Reduce Wastage
- Improve Stock Management
- Increase Turnover: Reduce Waiting Times, Speed of Delivery
- Improve Space Utilisation, Better Service and Aesthetics, Business Efficiency
- Reduce Errors: Increase Piece of Mind, Reduce Compensation Claims
- Improve Reputation

If you would like a representative from ARX to contact you to discuss your requirements, please complete the form below without obligation and fax it to 01604 859777.
