POSITIVE SOLUTIONS

E P o S a n d P M R Software and Hardware Systems

The Positive Solutions system is a cutting edge EPoS and PMR software and hardware system which not only meets today's complex pharmacy & dispensary requirements, but which can constantly evolve to keep pace with the rapidly changing environment. Positive Solutions, is a one stop solution of powerful integrated systems, which is configured to your exact requirements and can include delivery, installation and comprehensive staff training with a continuing support package.

Positively responding to your ever changing IT requirements

KEY FEATURES

ANALYST EPOS

Analyst Electronic Point of Sale (EPoS) system is powerful yet easy to use.

ANALYST HEADOFFICE

Analyst PMR HeadOffice gives you central control of preferred suppliers, brand equalisation, parallel imports and generics so that you can optimise use of key products. Information sent from branches allows you to monitor key performance indicators.

ANALYST IPS

The Analyst Integrated System is a fully integrated PMR and EPoS system that allows you to record interventions and make professional decisions.

ANALYST PMR

Is a technically advanced but easy to use patient medication record system designed to support your dispensary now and in the future.
